putting new hampshire to work

June 2, 2009

Request for June 2009 Submission of
Loan Application for ARRA Project
Biological Process Modification

Dear Mr. Clement:

Your water pollution control project has been selected to receive American Recovery and Reinvestment Act of 2009 (ARRA) funds under the New Hampshire Clean Water State Revolving Fund Program. In order to process all loan applications in a timely manner including the necessary approval by Governor and Executive Council and to insure all ARRA funds are committed within the time constraints imposed by ARRA, we are requesting that you submit to us a complete loan application ideally by **June 15, 2009** but no later than June 30, 2009. If you will not have the necessary authority to borrow by that date, we request that the loan application be submitted as soon as possible after securing such authority.

CWSRF loan application forms can be obtained by:

- a. Visiting the New Hampshire Department of Environmental Services' website at <http://des.nh.gov/recovery/index.htm> and clicking on "Clean Water SRF ARRA Application Requirements and Forms", or
- b. Requesting Application Forms by email by contacting Gretchen.Rich@des.nh.gov, or
- c. Requesting Application Forms by telephone by contacting Gretchen Rich at 271-3448.

Having a loan application submitted and approved at the earliest time possible will help to minimize delay in getting your project to construction. Please call Gretchen Rich at 271-3448 should you have questions concerning the loan application.
